

# Spot taping machine **KTBE Plus**

## ECONOMY REDEFINED

Insulating, spot taping, fixing, marking and labeling – process-controlled, fast and efficient. The KTB E Plus combines all these capabilities in a new generation of spot taping and insulating machine.

## YOUR BENEFITS

### Time savings thanks to short cycle times

- Up to 50% less processing time compared to manual production
- Simple handling through automated process steps
- Thanks to automatic diameter detection, the required tape length is always guaranteed

### Highest quality and process security

- Reproducible quality
- Automatic detection of diameter reduces operator involvement
- Efficient processing of critical cable cross-sections
- Automatic display of maintenance intervals
- Tape is cut with a self-cleaning, low-wear cutting blade

## Cost-effective and significant material savings

- Up to 80% lower material costs compared to heat-shrink tubing or caps
- Calculable tape consumption thanks to programmable number of windings

Application	spot taping, fixing, insulating, marking, labeling (suitable even for very small diameters)
Tape material	all conventional adhesive tapes
Tape width	9 – 50 mm
Bundle diameter	1 – 16 mm
Tape core diameter	1.5" und 3"
Unit counter	3x (unit counter, reverse counter, total counter)
Display of maintenance intervals	e.g. blade cleaning
Power supply	1-phasig 230 V / 50 Hz, 6 bar
Dimensions (W×H×D)	670 × 400 × 500 mm
Weight	45 kg
