

UNICUT

UniCut is a strong cutting machine to process flat cables / wires up to 50 mm² cross section equivalent copper cable cross section

- User friendly HMI,
- Belt driven feed-in,
- Flat blades,
- Pneumatic cutting head,
- Solid and robust construction,
- Customization opportunities to a certain extend (please consult before ordering)

**CONSIDER HEAVY DUTY
CUTTING TO LENGTH
JOB DONE!**

Technical Data

| | |
|------------------------------|---|
| Cross Section | 2-50 mm ² |
| Range of Lengths | 1-1 000 000 mm |
| Length Accuracy | Repeat accuracy : +/- 0.3% or (2.0 mm +/- 0.2%) |
| Passage Height | Max. 35 mm |
| Passage Width | Max. 100 mm |
| Feed in Speed | 1000 mm/sn (depends on material) |
| Quantity Range | 1-99 999 pieces |
| Noise Level | < 70 dBA |
| Electrical Connection | 110-240 VAC / 5A, 50/60Hz, 320 VA |
| Compressed-air Connection | 6 bar 87 (psi) |
| Dimensions (WxHxD) | 550x500x450 mm |
| Weight (floor load capacity) | 70 kg |
| Work bench | Not included. Expectations are level, stable and vibration free bearing surface |
| Menu Language | Turkish, English |

We will be pleased to provide working samples to examine if the range of machine fits to your products
