

Taping tool **KTHB Mini**

MOBILE CABLE TAPING TOOL

The KTHB Mini is a mobile, electric taping tool for use on assembly boards. This makes it possible to tape longer segments quickly and easily.

YOUR BENEFITS

Time savings thanks to high winding speeds

- High rotational speeds enable processing twice as fast as conventional processing with overlap taping
- Operable in various working positions with minima training

Developed for production of longer tape lengths

- Efficient for overlap taping for lengths from half a meter
- Processes conventional adhesive tapes

Highest quality in a manually guided process

- Consistent tape tension, guaranteed wrinkle-free taping
- Easy-to-control process

Application	for short and long segments in both directions on form and assembly boards
Tape material	all conventional adhesive tapes
Tape width	9 – 19 mm, optional 25 mm
Tape core diameter	1,5", optional 1,25" or 1"
Tape outer diameter	max. 110 mm
Taping diameter	3 – 20 mm
Feed rate	manually configurable
Required distance between harness and board	min. 100 mm*
Rotational speed	120 – 280 rpm
Power supply	110 – 240 V, 50/60 Hz
Working voltage	19V DC
Dimensions (W x H x D)	150 x 320 x 120 mm
Weight	1.73 kg

* Depending on the outer diameter of the adhesive tape roll
